Professional. Punctual. Prestige.

Welcome, 歡迎, Bienvenido, أهلاً بك

Producing films for our clientele is one phase but it's much more than that. We want them to connect with people, across generations. Films should live beyond the screen. They should resonate and expand your world. These are the films that endure. A film can cross boundaries and cultures, and occasionally stand the test of time. Making a film last is about taking risks, discovering new things. Its about stepping from your comfort zone into the abyss.

Australian Cinematography is about more than just creating films, we have thought bigger and broader than this. We want all of the creative arts to collaborate together to create timeless classics in the film world.

Our Mission

Each creative has been selected carefully based on there portfolio, rate (Price), and reviews. The team at Australian Cinematography closely monitors each task ensuring the project assigned goes exactly to detail.

Gladly we allow alterations to be made in the assigned task between the client and creative before the project starts. Once both parties come to an agreement the contracts will be signed.

Australian Cinematography takes professionalism very seriously, however we do provide opportunities to amateurs.

Amateur - Someone who is new to the industry and has no experience in a particular field and/or just finished school, university, or tafe and now looking for a career in being a creative.

We go through a very selective process with an amateur before we decide to send them into the field professionally.

Clienteles opinions matter. Whether there is an issue on the day of the project or if it's not exactly what you were wanting in the final edit, you can contact us at anytime providing feedback and we will try our best to resolve the issue.

The team at Australian Cinematography have done our best to provide the clientele with our top quality creatives at an affordable price.

Our Clients

SONY

“ I created the agency to allow creatives to follow their passion.

Having prior experience in the cinematography industry I understood how important it was to be happy and turn your ‘hobby’ into your career but always enjoying everything you do.

Your happiness comes first!

This includes our clientele. To see their faces light up when you give them the final product. The weeks. The months of eagerly waiting. Over.

To give people memories they can cherish forever is so important.

This is more than an agency.
It's family. ”

Liam Blythman
- Director
